Dear Governor Dave Heineman

I am writing you regarding the Death Penalty.

I support the Death Penalty, to a certain extent.

I support the death penalty especially for the murderers, rapist, and the kidnappers who murder the person who is kidnapped. Those people need to be punished for what they have done. The death penalty is when someone is electrocuted in an electric chair. Recent statistics show that 18.2354% of Americans were sentenced to the death penalty last year. According to a more recent study 100% of American say that they would not like to be sentenced to the death penalty.

Sincerely,

Dominic Stuhr
