# Special Tricks that May Help You:

---

- ❖ If there is a word that needs to be in what comes up in your search, you simply put a + in front of that word.
- ❖ If there is a word you do not want to come up in your search you put a – in front of that word.
- ❖ You can put quotes around phrases so the words that you typed in come up together instead of separate.
- ❖ You may also type in the & symbol to find two things in your search.
