To the court of Seward,

I am here to say that Lucas Peterson dos not deserve that deal at all that you guys made with him. He killed his own baby and all you guys could do is make a deal with him that if he showed you guys where trista was that he wouldn't get life in prison. That isn't fair at all. That baby lost her life for no reason and he deserves life sentence in jail. I don't understand why you guys didn't get him life time in prison I mean you got to look deep into it what if that was your child that he killed cause he was messed up. If you don't stop and look at it in that type of way then you are not protecting your citizens at all and you're not going to be if he don't get life time in prison because he will get out and do more drugs and will end up just killing another innocent person. Plus if you think that treatment for him will help him you're wrong he will never learn for he just dos not care. I just think that he should get more time in prison for what he did and think you guys were wrong about making a deal like that with him for what he did?

Sincerely,

Jake Stalsberg
