Re: Abortion vs. Pro Life

Jeff Fortenberry
National capital
Capital building in Washington DC

Dear senator Fortenberry

Abortion vs. Pro Life

I believe that it is the women's choice. I believe that if she wants to give that baby up even though it may not be the right thing to she can do it but it is her choice. That is why I support pro choice.

I think that we should totally legalize abortion up to a certain point in the pregnancy. A reason I believe it should be legal is to help regulate population. I'm not saying to go kill a fetus because there are too many people it's because there are so many poor and starving kids in the world and if abortion was legal then it would decrease that fact.

The second reason I say that it should be legalized is because there are so many unwed home less teen mothers. If abortion was legal in all states then a teen mother would not have to drop out of school. Thus the drop out rate in schools would drop and help the government along with the poverty rate.

I believe this should be dealt with immediately because I'm tired of seeing the poor unwed mothers on the streets. It's sad to think that the most prosperous country in the world has so many poor mothers and children out on the streets.

I want the legislator to pass the pro life vs. pro choice and legalize abortion.

Sincerely yours,
