

While on my last vacation we went to Worlds Of Fun. Worlds Of Fun is in Kansas City, MO. It is a theme park with a lot of roller coasters. My family and I go there every year. It is a lot of fun for the whole family.

We traveled by car to get there it was a four hour trip by car. We had the play station hooked up **se** we didn't get bored on the way there. We saw all kinds of things on the way there.

I took my friend peanut with us so that I would have someone to ride the rides with; he was scared of the rides so I had to force him to go on the rides. We all had fun because Austin got used to the rides so he was able to go on the rides.

We also drove the go-carts so Austin and I raced around the track on the go-carts. He never beat me. We all had a good weekend. Worlds of Fun was still very fun. When we got home we wanted to go back because it was a lot of fun.

We plan on going back again this year, because every time we go down there we have a lot of fun.
