Dear: Jeff Fortenberry

Death Penalty

I am glad that Nebraska got rid of the death penalty. I think it was unconstitutional and I just did not like it. I hope that you keep doing your part to help keep us to not go back to the electric chair.

I care that we continue not to have the electric chair because as I said it is unconstitutional. If someone does have to die we should just get another form of a death penalty but nothing unconstitutional.

I want you to help Nebraska stay way from the electric chair.

Sincerely yours,

Travis Rathjen
